After about 1-hour drive, we will reach GOBEKLITEPE and will start our tour. Gobeklitepe is one of the most important archeological sites in the world. First of all, it dates back to 12 thousand years ago. In other words, it's approximately 8 thousand years older than the pyramids and 7 thousand years older than the Stonehenge. Furthermore, it is even older than the human transition to settled life. Therefore, contrary to the widely held view, it proves the existence of religious beliefs prior to the establishment of the first cities. Findings of researchers at Gobeklitepe shows that a religious class existed even at such early ages, division of society into social classes took place well before the widely assumed dates and perhaps the first agricultural activity may have been conducted in the region. The site is also remarkable with the first patriarchal thought, the first terrazzo flooring and the first statues and reliefs of the Neolithic Age. As a result, all this new information has been added to the collective knowledge of humanity and into the history books. On the merits of its contribution to human history, Gobeklitepe was inscribed to the UNESCO World Heritage List in 2018. After that, we will have a lunch. The city has a special type of kebab which was named after itself "Urfa Kebab" and we will have taste this kebab for sure. After the tour, transfer to your hotel in Urfa and check in. The rest of time is yours. Dinner at hotel. Overnight in Urfa.
