ITINERARY

Day 1 : DAILY GRAPE HARVESTING TOUR

Lunch Included

Pekmez is a molasses-like syrup made from the boiled down juices of grapes. A staple ingredient of Turkish cuisine, pekmez is used in many dessert dishes and, when mixed with tahini, is a popular breakfast spread. Rich in natural goodness, it's also locally renowned as a cure-all for colds and flu. In Cappadocia this vital condiment is still made the old fashioned way, with local women gathering together to boil down the fruit in vast vats. This tour is only available during the grape harvesting season which is September through to mid-October.

During this full day tour, you will experience the entire process of making pekmez; beginning with harvesting the grapes from local fields (we will travel there in jeeps) and then watching the pekmez boiling process with local women of the village. The tour also includes a delicious organic lunch with produce picked fresh from our garden. You will have an English speaking guide throughout the day to explain the process and also answer any questions you may have about Cappadocia and Turkey. Tour finishes around 16:00. After end of the day, our tour ends and we leave our valued guests with sadness.

We hope your tour was a memorable one and we would like to see you in the future in one of our tours again. Have a nice trip back home and thanks for choosing us.

Includes

- Professional English - speaking tour guides
