ITINERARY

Day 1 : DAILY HAKKARI CUKURCA TOUR

Pick up from the hotel after breakfast. The first thing that comes to mind when it comes to Hakkari is undoubtedly the Zap Water. Zap Water passes from the west of Cukurca district to Iraqi territory. It grows with some streams it receives while crossing in Bashkale Valley. The most important source that it feeds is Karasu and determines the borders of Hakkari -Van, Yuksekova, Bashkale, Ormeta and Kunin respectively. Rain, snow and glacier-fed waters in the spring and early summer with the Zap River surging waters during the winter months would be one of Turkey's fastest flowing rivers. We move to Cukurca through the Zap Valley. It is also an open-air museum with the visual forms of the valley through which the stream flows. In addition, the steep and deep valleys along the Zap Stream are very rich in terms of both cruise and presentation. Throughout the valley, we will be able to see waterfalls, endemic plants and perhaps reverse tulips. We will see and illustrate Cukurca Castle and multi-storey stone houses in Cukurca. Return to our hotel in Hakkari .Overnight in Hakkari .

We hope your tour was a memorable one and we look forward to seeing you in the future on another our Turkey Tour. Have a safe trip back home and thanks for choosing us.
