You will visit all available section in Mevlana Museum such as Matbah (Kitchen), tombs, Tilavet Chamber (Quran Reading And Chanting), Semâ-Hâne (Ritual Hall). After visiting continue the tour by visiting Selimiye Mosque is located next door to Mevlana Museum. The mosque was commissioned by, and named for, Sultan Selim II (1566-74) in the Ottoman style. Construction began in 1558 when Selim was still a prince and was completed shortly after he became sultan, in 1567. Afterwards, you will have lunch in an authentic restaurant. After having lunch, drive to the Beysehir Lake. It carries the same name as the principal urban center of its region, Beysehir. Water level in the lake often fluctuates by year and by season. Lake Beysehir is used for irrigation, although it is also a national park. There are thirty-two islets in varying sizes in the lake. Lake Beysehir is also an important site for many bird species. While you are on the Beysehir Lake Tour, you will be able to visit, Esrefoglu Mosque is the only wooden mosque where several decorative techniques of stone, brick, ceramics and painting were used together. It is still a mystery how the wooden portions of the mosque, built in 1299, lasted until today without decay E?refo?lu Mosque, built in 1299 in the Bey?ehir district of the central Anatolian province of Konya, is an architectural mystery. Afterwards, visit Eflatun Pinari means "violet spring", and is the location of a Hittite shrine dating back to the 13th century BCE. Its layout is quite different, a large, walled basin dominated by a wall of relief figures in one end. The figures symbolizes winged sun disks carried by semi-human monsters.
